

Report Design

Learn how to edit the Room Report and Job Estimate Report with
Report Design.
By: Mical Santiago

Overview:

The Report Designer allows the user to create custom report designs or edit existing reports. In this lesson the user will learn how to edit the existing Room Report and set it as the default Quick Report. FloorRight users will learn how to edit the existing Job Estimate Report. Both the Room and Job Estimate reports contain company/customer information, file name and date/time.

Customize Room Report:

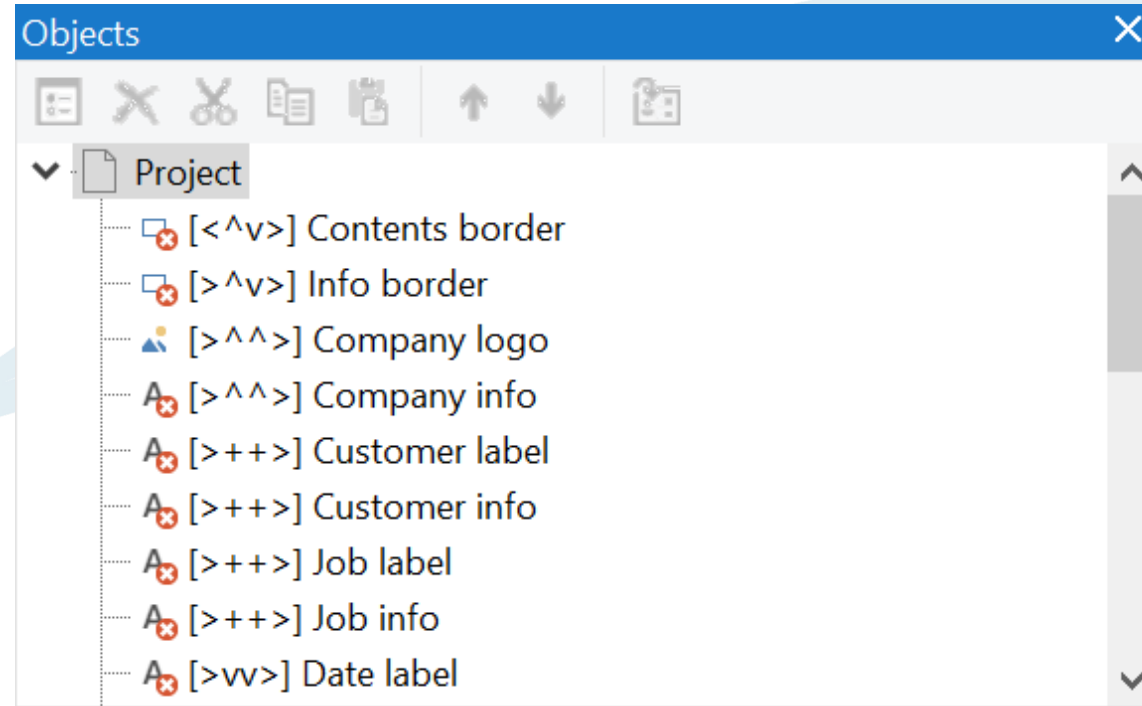

Step 1: Open FloorRight.

Step 2: Click File/Reports/Design to open Report Designer.

Step 3: Open the Room Report via File/Open. Double click on the "Landscape" folder and double click on Landscape_Room.lst to open the report.

Step 4: Right click on the “Rooms” object in the menu and left click “Locked” to unlock the rooms.

Step 5: Right click on the “Legend” object in the menu and left click “Locked” to unlock the material legend.

Step 6: Right click on “Company logo” and left click “Locked” so you can change the picture.

Step 7: Double click on “Company logo” and search for a picture you want to add to the room report.

Step 8: Left click "Save" and the picture will be added to the room report.

Step 9: Left click and drag a corner of the rooms border to make room for the material legend.

Step 10: Left click and drag a corner of the material legend to move it to the north of the room report.

Step 11: Once the material legend is in position left click and position the rooms area.

Step 12: After making the changes left click File/Save As and name the report and choose a location on the computer to save the custom report.

Customize Job Estimate Report:

Step 1: Open the Job Estimate page via Job/Job Estimate.

Step 2: Click File/Reports/Design.

Step 3: Open the desired report. Click File/Open/Landscape_Job Estimate Everything.lst
